

MODEL G™ PLUS Poultry Feeders

The Heavy-Duty Feeder for Roosters, Roasters, Turkeys and Other Poultry

Let's grow together.

Starts Birds Well and Saves Feed as Birds Grow for Top Feed Conversion

- **Shallow pan option** reduces the need for feed trays and extra labor when starting birds.
- **Optional feed windows** fill pans high with feed to attract young birds.
- **Feed-saving features** include Chore-Time's "V"-shaped pan bottom design, double pan lip and anti-rake fins.
- **Extended fin model** keeps the cone off the bottom of the pan (when the pan is on the floor and the windows are closed) resulting in more feed in the pan and improved flow for harder flowing feed.
- **All-plastic construction** with ultraviolet protection and reinforced eating and cone wear areas. Precision molded parts are corrosion-proof and easy-to-clean.

Chore-Time's MODEL G™ PLUS Multi-Use Feeding System starts birds well, includes feed-saving features for top conversion and provides birds of various types and sizes with consistent access to fresh feed.

Durable, Open Design Accommodates Various Bird Types and Sizes

- **Bird-friendly 8-spoke open grill** design lets young birds exit pans easily and, as birds grow, provides comfortable access to feed for even the largest birds.
- **Optional feed-saver lip extension** is available for use with turkeys and other large poultry.
- Designed for **management simplicity**.

Twist-Lock Pan attaches securely to grill and hangs for cleaning.

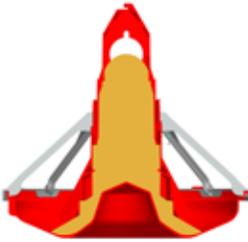

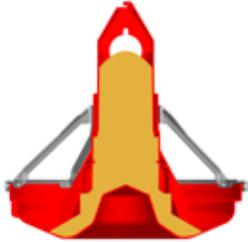

Easy-To-Read Feed Level Settings

- Easy to adjust for flooding or a lower feed level as birds grow.

MODEL G™ PLUS Feeder Specifications

| | | | |
|---|---|--|---|
|  |  |  |  |
| | Model G Plus SHL Shallow Pan | Model G Plus STD Standard Pan | Model G Plus EXT Extended Fin |
| Pan Shape |  |  |  |
| Pan Depth | 2.5" (64 mm) | 3" (76 mm) | 3" (76 mm) |
| Window Options | Window or Non-Window | | Window Only |
| Extended Fins | No | | Yes |
| Advantages of This Model | Shorter pan height results in easier access for small birds. | Proven, reliable performance for use with various types of poultry. | Fixed feed height at bottom helps maintain feed flow regardless of pan height or litter level; more interior space improves flow for harder flowing feed. |

Other Feeder Features

- 1/3 or 1/2 HP 348 RPM power unit.
- 230 volt 50/60 Hz 1 or 3 phase power.
- Optional removable top and slide shut-off available for all models.
- Free-swinging pan is self-leveling and protects birds. Roll-formed tube keeps pans in position.

Chore-Time's MODEL G™ PLUS Feeder is shown with optional feed collar for use with turkeys or other large poultry.
